73 Park Avenue  
Madisonville, KY 42431

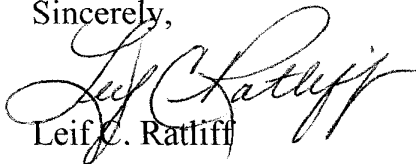

Dear Ms. Wells:

You have filed a claim against our client, Trover Foundation, in which you alleged Trover Foundation, its entities and/or its employees did not meet the standard of care. This letter is notification that after 30 days from the day of this letter, Trover Foundation (Trover Clinic and Regional Medical Center) will no longer provide your routine medical treatment. We trust this will allow you sufficient time to seek another medical provider for future routine care. Please inform your primary care physician that you will not be treated at Regional Medical Center except in the case of an emergency.

Should a medical emergency arise, Trover Foundation will provide stabilizing care for you at Regional Medical Center. In the case of an emergency, you may seek treatment at the emergency department of Regional Medical Center.

Trover Foundation will assist you to insure continuity of care with your new health care provider and will provide medical records and a list of physicians in the area if needed.

Sincerely,

  
Leif C. Ratliff
